

POLLUTION TIMELINE

1991—Rails to Trails environmental assessment first reveals a problem.

1992---E-Systems reports pollution to Fl. Dept. of Environmental Protection (FDEP)

1993---affected soil removed from immediate site.

1994—discovered leak in waste tank that was source of pollutants.

1995—Consent Order executed with FDEP.

1998---Containment Assessment Report submitted to FDEP.

1999—first feasibility study for cleanup submitted to FDEP.

2001—FDEP rejects cleanup plan.

2005—groundwater pollutant plume starting to move into surrounding neighborhood.

2008—assessment of pollution continues; FDEP expects final report in May.
